29	30 6	31 7				

Dear Customer:

This is your 2024 calendar and an explanation of how our service works.

The servicing of your water conditioner is scheduled on one of our regular service routes. The day has been determined by your geographic location.

This calendar is the “delivery guide” for your service. **Note the blue numbers under the calendar dates as they indicate your route number.** They run from 1 through 20. Refer to the top of the calendar for your route number. Using this number as your key, you can easily see the day of the month on which your service will be offered.

If your unit is serviced every 14 days, two route numbers will be shown. For weekly customers, four numbers are shown.

As you can see, our routes are carefully scheduled to establish a uniform pattern for your convenience. When a customer is “not at home” on the scheduled delivery day, this disrupts the customer’s service, and it causes a severe problem with our routing plan.

All that is necessary in order for us to provide service is access.

If no one will be home on your delivery day, you may consider doing one of the following:

1. Leave a key with a neighbor.
(Either notify us the day before, or leave a note at the door).
2. Deposit a key at our office or provide us with a key pad code for your garage.
3. Call our office at least one day before, and we will reschedule your delivery.

*Thank you very much for your patronage.
We want you to have completely conditioned water at all times.*
